

Devonshire Cavern

Derwent South

Kirkland Shaft requires a 22m rope. Backup to a tree.
Use a sling around the scaffold bar at the shaft top.

Anchors have been placed on two pitches for SRT practice within the cave.

Enter the system and descend the short entrance slope. Head uphill (old show cave) to the large chamber where daylight streams in from a climbing shaft in the roof and the old show cave entrance blocked by a steel grill. Go up the steps to the next chamber. Hell's Well is in a passage to the right; the other pitch with anchors is down a short climb to your left.

Equipment:

Hell's Well:

12m rope, 4 maillons

Pitch Opposite:

20m rope, 4 maillons
