

Layby Pot

Stoney Middleton

Mined Entrance

Back-up belay from fallen tree across entrance.
Continue traverse line to Spit on left above entrance proper and from there to P bolt on left down short slope to ledge before 12m pitch. Twin P bolts give a good Y hang from the pitch head.

Oil Drum Entrance

It is possible to do a through trip from the mined entrance, which brings you out on the same side of the road about 100m away. Don't rely on finding your way through.
Leave the original entrance rigged!

Equipment:

24m rope, 4 maillons, 1 hanger.
